However, in no event shall the rate be more than the maximum legal rate for individuals in the State of Florida.
- (b) If an Owner shall be in default in the payment of an installment upon an assessment, the Board of Directors may accelerate the remaining installment of the assessment upon notice to the Owner and thereupon the unpaid balance of the assessment shall come due upon the date set in the notice, but not less than ten (10) days after delivery thereof to the Owner or not less than twenty (20) days after the mailing of such notice to him by registered or certified mail, whichever shall first occur. Any Owner, tenants, guests or invitees, in arrears of monthly installments of the annual assessment exceeding 90 days shall be subject to loss of privileges of access to the Limited Common Area and suspension of voting rights. However, any special assessment shall first be approved by the Board of Directors and assented to by Owners having at least 2/3 of the voting rights in the Association. An individual Owner's share of any special assessment shall be determined in the same manner as the share of the annual maintenance assessment. Special assessments shall be payable in the manner determined by the Board.
- (d) Each assessment shall be the personal obligation of each Owner. If the assessment is not paid on the due date set in the notice of acceleration, the Association may, in addition to any other remedies it may have, bring an action against the Owner to collect the amount due. The Association shall be entitled to recover, in addition to the assessment and any interest, all costs and attorneys' fees incurred in collecting the assessment.
- (e) Upon request of any Owner or mortgagee, the Association shall furnish a certificate in recordable form signed by an appropriate officer showing the amount of unpaid assessments, if any, against any individual parcel of property, the year or years for which any unpaid amounts were assessed and levied, and any interest or other charges. The information stated in the certificate shall be binding in all circumstances on the Association.

Section 3.4. Lien for Annual Maintenance Assessment and Special Assessments. The following provisions are made to establish an alternate or cumulative means to enforce collection of annual maintenance assessments and any special assessments:

- (a) The Association, as the present owner of the property, declares that all land subject to maintenance assessments and maintenance liens, together with all improvements now or later constructed on these lands, shall be subject to a lien for the annual maintenance assessment and any special assessments. Each purchaser and future Owners of any individual parcel of the Property subject to these assessments, by acceptance of a deed to the Lot, shall be deemed to have agreed to pay the assessments to the Association. Also, any future Owner of any individual parcel of the Property acquiring title by devise, intestate succession, mortgage or lien foreclosure, judicial sale, or by any other means, shall be deemed to have agreed to pay these assessments to the Association. The annual maintenance assessment and any special assessments, together with interest and collection costs, as provided in this instrument, shall be a continuing lien on the land subject to the assessments and all improvements of such land until the lien is satisfied and released.
- (b) If the assessment is not paid on the due date set in the notice of acceleration, the Association shall have the right to file a claim of lien in the Public Records of Sarasota County, Florida. This lien shall attach only upon recording of a claim of lien in the Public Records of Sarasota County, Florida.
- (c) The lien for any assessment levied against an individual parcel shall be subordinate and inferior only to ad valorem taxes or special assessments levied by governmental entities and the lien of certain mortgages as provided in Subparagraph (d).
- (d) The lien for any assessment shall be subordinate to all bona fide mortgages other than purchase money mortgages given by a buyer to an Owner-seller of a parcel which are placed upon any parcel subject to an assessment prior to the recording of a claim of lien by the Association. However, this subordination shall apply only to assessments that were due and payable prior to the sale or transfer of the property pursuant to a final judgment of foreclosure or any other proceeding or transfer in lieu of foreclosure. No sale or transfer shall relieve any parcel or the purchaser or transferee from liability for any assessments thereafter becoming due or from the lien of any such subsequent assessment.
- (e) The Association may enforce the assessment lien by a foreclosure action in the same manner as a mortgage or in any other manner permitted by the laws of the State of Florida. If the Association commences an action to foreclose the lien, it shall be entitled to recover all costs, expenses and attorneys' fees incurred in preparation for and in bringing the action, and all costs, expenses and attorneys' fees shall be secured by the lien.
- (f) All rights and remedies of the Association in this paragraph are cumulative of any other rights and remedies it may have pursuant to this instrument or by law. No provisions of this paragraph regarding subordination of the lien for assessments shall relieve an Owner from personal responsibility for payment of the assessments and any costs and fees incurred in collecting it.

Section 3.5. Reserves. The Association may, in its discretion, either hold collected maintenance funds without investing them, or it may invest them. The Association may also set aside in reserve a portion of the annual maintenance assessment that it determines to be appropriate for expenditure in years following that for which the assessment was made.

Section 3.6. Lands Subject to Assessment. All of the Property is subject to the lien for the annual maintenance assessment and any special assessments as described in this instrument, with the exception of the following lands:

- (a) Roadways, rights of way, utility sites, and similar lands and improvements that may be conveyed or dedicated by the Association to any governmental body, or public or private utility company, as reflected in any Plats of Chestnut Creek or in any document recorded in the public Records of Sarasota County, Florida;

LAND USE PROVISION AMENDMENTS

AMENDMENTS TO PATIOS LAND USE DOCUMENT
FEBRUARY 2020

The recommended change to the verbiage in the Land Use Document is as follows (which will replace Article VI Section 6.2 (c) (8)):

Article VI Section 6.2.

(c) (8) The Association will allow, at the Owner's choice, improvements to a driveway and/or walkway of their Dwelling Unit as follows:

1. The Driveway and/or walkway may only be "stained" (not painted) with a concrete sand color. The color will be included in the ARB Guidelines approved by the Board. Prior written approval must be obtained. (See ARB Guidelines for details.)
2. If the Owner decides, the improvement to the driveway and/or walkway can be the installation of pavers. The color and/or style of the pavers will be included in the ARB Guidelines and approved by the Board.
3. The dimensionality of the original footprint for driveways and walkways may be altered with strict adherence to the following guidelines:
 - (a) Width of driveways can be no less than the current footprint and no more than 18 feet. The resulting width must be "symmetrical" to the existing/current driveway not all on one side or the other. That is, if the resident elects to use the maximum width of 18 feet, it must be 9 feet from center line of Garage door on each side.
 - (b) Width of walkways must adhere to the current footprint unless prior written approval from the ARB and Patios Board of Directors is obtained.

Any ground between the innermost edge of the walkway footprint and the dwelling itself can be filled to create an uninterrupted surface. The outermost edge of the walkway can be expanded wherever a curved design is desired to soften the angularity of the existing footprint with its 90-degree turns, the extent of said curving to be approved on an individual basis at the ARB and Grounds Committee discretion.

- (c) The apron transitioning from street to driveway must not be more than 6 feet greater than the driveway width. That is, if the resulting driveway width is 16 feet, then the apron must not be more than 22 feet, but must taper to the allowable width for driveways (See 3. (a) above). If the resulting driveway is 18 feet, then the apron must not be more than 24 feet. Each side of the "new" apron can extend no more than three feet from each side of the new driveway; however, the Apron must not begin before the driveway meets the edge of the current county sidewalk closest to the street. If there is no sidewalk, the apron again will be no more than 6 feet greater than the driveway width. The taper must start at the same point of the current driveway but no more than 6 feet vertically from gutter.

- (d) Any modification of the irrigation system necessitated by expansion of driveway or walkway is the responsibility of the homeowner; however, any such modification cannot deprive existing vegetation of adequate irrigation coverage. Failure in any instance resulting from the Owner's modifications will result in the Owner being made responsible for necessary repairs as ordered by the ARB.
4. Paver blocks whose color and/or style have been approved by the Board and incorporated into ARB Guidelines can be substituted for concrete on driveways and walkways. On driveways that cross the county sidewalk, pavers can be allowed provided the Owner acquires the required permit from the county at the Owner's expense and supplied to ARB prior to construction.
 5. In addition to the requirements/standards listed in this document, residents must strictly adhere to the ARB Guidelines Document unless prior written approval from the Patios Board of Directors is obtained.

GENERAL (ARB) GUIDELINES

The “Patios Look,” one of lovely landscaped grounds and exterior home styles of a similar nature, reflects the feeling of a community that cares about and for itself. For many of us it was the reason we were attracted originally to the area. And for those who have been part of the Patios from inception and during the growth years, it demonstrates the good stewardship of the association and all its residents. We all are proud to invite family, friends, and acquaintances to our homes. Part of that pride is the recognition that our neighborhood looks attractive and is well maintained.

The Architectural Review Board (ARB) exists to control the overall appearance and conformity of the Patio homes. It ensures the adherence to the provisions of the land use documents while making certain that any construction and alterations blend in with the character of the neighborhood. The vast majority of us recognize that granting seemingly small exceptions to the land use document and bylaws inherently opens the door to larger and more conspicuous variances that ultimately can seriously affect the overall look of the Patios.

With all of the above in mind the ARB will attempt to periodically communicate in the newsletter more information on various aspects of the architectural guidelines. This means that if an exterior view of your property does not comply with the guidelines to maintain the conditions, look and/or standards that we as residents have all agreed to that the ARB will notify you of the perceived violation and request to comply. This also includes requiring the approval of the ARB for any improvements to your property that is external to your home. Hopefully a better understanding of the specifics and background behind many of the policies will help in minimizing problems concerning owners’ requests for architectural changes.

Notification and Right to Appeal: All notices of failure to comply with covenants and decisions of the ARB on Property Request Improvements shall be submitted in writing to the Board of Directors and to the Owner or party submitting the matter for decision to the ARB. Any Owner or party aggrieved by a decision of the ARB shall have the right to have the Board of Directors review the decision, provided that a written request for review, stating in brief terms the reasons why the review is sought, is filed at the principal office of the Association within 30 days from the date a copy of the decision of the ARB is either personally delivered or from the date the ARB’s decision is placed in the U.S. mail, addressed to the Owner or other party, with postage prepaid. The matter shall be decided by the Board of Directors within 60 days from the date the request for review is filed. The Owner shall be notified at least 14 days in advance of the meeting of the Board of Directors at which the matter will be considered, and shall have the right to attend the meeting and be heard on the matter. The decision of the Board of Directors shall be final and binding.

DRIVEWAYS & FRONT WALKS

Public sidewalks, including the portion that is part of your driveway, may not be stained. This is a safety consideration because stained surfaces may be slippery.

Driveways and private front walks may be stained with (formerly Scott brand) Concrete Sand, Color 706 or Anvills Catalina Stone (available from Babes Hardware).

Please note that stains may be obtained from any paint vendor. The Board is not endorsing any brand of paint or vendor. April 2008 - Updated General Information, Rules & Guidelines Lanai Enclosure Guidelines Updated

Frequently residents wish to enclose their lanai in various ways, and the following should more clearly provide a framework of how this architectural change is being viewed in the context of the land use documents.

1. If a lanai is currently under roof (i.e., a room screened in but covered with a tile roof), the screen sides can be replaced with windows and kickplates that are in conformance with the architectural style and construction quality existent in the Patio homes. Any change needs approval by the ARB.
2. If a lanai is screened on top, the only remedy authorized currently is enclosing the lanai under roof with tile matching that on the residence as it now exists. No other roof covering (metal, wood, plastic, etc.) has been manufactured that conforms to the architectural style and quality now prevalent in the Patio homes. Any change needs approval by the ARB.
3. Use of any material to cover the roof or screened sides of the lanai from the inside of the screened enclosure falls under the same restrictions,
4. Florida screen may only be used within 24 inches from the ground around lanai.

If you are considering any lanai changes, please contact an ARB member for guidance about application criteria.

Rescreening Lanai or Home windows:

There is no requirement to notify the ARB for rescreening your lanai or windows, if using the approved or same material.

REPLACING LANAI FRAME:

Red roof homes – the lanai frame may be all white aluminum or all bronze aluminum.

White roof homes – lanai frame must be all white aluminum ONLY. If adding a lanai frame or enlarging your lanai, you must request the change through the ARB and obtain all necessary permits. Lanai can be no more than 16 feet deep from the rear of your home without crossing your property line and no wider than the width of your home. It must have at least one egress door.

HURRICANE SHUTTER POLICY

The Architectural Review Board in conjunction with the Board of Directors exists to ensure the adherence to the provisions of the Land Use documents, while making certain that any construction and alterations blend in with the character of our neighborhood.

The goal of this policy is to allow certain hurricane shutter options within the framework and insure prudent construction standards that will maintain the integrity of the residence. The granting of variances and options as well as certain restrictions under this policy will be governed by Section 4.15 of the Amended and Restated Declaration of Maintenance and Land Use Provisions for Chestnut Creek, p. 17, dated July 27, 1999, and Article V, Section 5.9 of the Patio Homes Land Use document, p. 12, dated May 6, 1999.

All hurricane shutter styles installed before April 30, 2006 are acceptable. Effective April 1, 2007 & April 1, 2011 the Hurricane Shutter Policy was revised.

Effective December 1, 2012 the Policy is further revised; Italics indicates new language in the Apr 1, 2011 & Dec 2012 revisions. All hurricane shutters approved between April 2007 and March 31, 2011 are grandfathered. When hurricane shutters are replaced, they must conform to the current policy.

1. Shutters must be one of five styles:
 - a. Permanent roll type with slats made of white aluminum or PVC
 - b. Permanent clear, polycarbonate panels
 - c. Removable corrugated white aluminum or clear polycarbonate panels
 - d. White Accordion style hurricane shutters that match the openings they are covering.
 - e. Certified Fabrics in white only.

See paragraph 11 for other shutters approved to be used during a hurricane.

2. Shutters of the Roll type must have bolts, nuts and washers of stainless steel or aluminum alloy. All concrete anchors shall be Red Head or equivalent. Roll-type shutters may have controls that operate from inside the dwelling and be either electric or manual.

3. All types of shutters, attaching hardware, and devices, must be either white or clear. Prior to this revision, white or clear was required only on the front of the home.

4. Deployment of hurricane shutters is permitted only during the period from June 1 through November 30. Only clear polycarbonate panels may stay in place at all times. If shutters are used when away for security, they must be "clear type." Prior to Dec, 1, 2012 there were no deployment dates specified.

5. Shutters must be installed on outside walls above windows and sliding doors and under the eaves where applicable. On lanais, all shutters must be installed on the inside of the screened area.

6. Homeowner agrees to indemnify, defend and hold harmless the Patios Homeowners Association from any claims, actions, cost or expense including, but not limited to, attorneys' fees arising out of or because of the construction or maintenance of the hurricane shutters.

7. Homeowners wishing to install hurricane shutters shall submit to the Architectural Review Board a written request. The request must include drawings which detail the specifications of the project as well as a sketch or picture of what the shutter will look like once installed. The method of installation to the residence must also be included.

8. The Board of Directors, through the ARB, will have 30 days from the date the request is submitted to act upon the request. However, every effort will be made to expedite the Owner's request and application as quickly as possible.

9. Any Owner or party aggrieved by the decision of the ARB shall consult their Amended and Restated Bylaws of the Patio Homes of Chestnut Creek Owners Association, Article XI, Section 4.C, page 9.

10. It is expressly understood and agreed that these conditions shall be binding upon Owner and also heirs, successors, and interest or assigns of Owner, and shall be the condition implied in any conveyance or other instruments affecting title of affected home.

11. During an actual hurricane, all approved shutters can be deployed. In addition, plywood, fabric, etc. can also be put in place three days prior to a hurricane but must be removed within three days after the hurricane has passed.

12. Shutters must comply with current South Florida building codes. Specifications must comply with state and county building codes. Florida State warned that you must have two exits from homes if shutters cannot be opened from within the house.

The Homeowner has the responsibility to ensure that all state and county codes are met. Approval by the ARB and Board of Directors does NOT imply conformance with applicable codes.

 - K. To pay up to \$250.00 for the replacement of a dead or diseased tree, hardwood, or palm.
 - L. The Association believes that the oak trees are an enhancement to the community. Therefore, every attempt should be made to retain them. It is recognized that there can be justifiable reasons to remove an oak tree. Such removal must have the written approval of the Grounds Committee and an Arborist (Removal of large oak trees is governed by Florida Statute Section 163.045). The Grounds Committee must be notified, and the removal is at the expense of the Lot Owner. Stumps must be ground down and the area re-sodded at the Owner's expense. Lot Owners are encouraged to replace these spaces with hardwood trees.

- II. Residents are expected to adhere to the following:
 - A. The addition, removal, or replacement of trees of any type requires written approval of the Grounds Committee. A list of approved trees and shrubs can be found in the Redbook. Removal of large trees is governed by Florida State Law, Section 163.045.

- B. The enlargement of any existing beds of flowering plants or ornamental shrubbery is prohibited without written approval of the Grounds Committee.
- C. Citrus trees are not permitted.
- D. Flowers may be added to existing beds at the Owner's expense.
- E. Bird feeders are not permitted.
- F. The Association is not responsible for damaged property from outside vendors.

III. Guidelines for use of decorative rock and/or mulch in existing landscape beds:

At the Owner's expense, mulch or river rock gravel may be incorporated into the layout of any existing landscape beds in accordance with the following restrictions:

- A. Mulch may be applied to any existing landscape beds if a cypress or red color is used. Other colors must be approved by the Grounds Committee in writing. Written requests and written approval are necessary for installation.
- B. River rock (#2B or ¾ inch) either white or brown may be used. Any other material must be approved by the Grounds Committee before installation.
- C. A commercial grade of black edging or other approval material must be installed where the river rock borders a grassy area. No edging shall have an outer edge (the edge abutting mowed areas) exceeding two inches above ground level.
- D. Concrete edging surfaces (garden borders) are the sole responsibility of the homeowner, with no recourse back to the HOA for damages.
- E. Homeowners must adhere to the following procedures and requirements:
 1. All requests for such orders, including color desired, must be presented to the Grounds Committee in writing and receive written approval before installation.
 2. Concrete edging may not exceed a height of two inches along the grass and four inches above ground level.

IV. Catastrophic event

If a catastrophic event occurs, either natural or man-made, special action will be taken. There is a Reserve Fund for such an event, and these Reserve Funds will be used in an effort to bring the Patios' grounds and landscaping back to the level prior to the event.

V. All landscaping is to comply with the community standards currently in effect for the Patios.

These rules provide the basic guidelines for maintenance of your grounds. Not every situation or condition can be covered in this document; therefore, in cases where such rules are not clearly delineated, the expressed written opinion of the Grounds Committee shall become the ruling on such matters. Homeowners may appeal Grounds rulings to the Board.

PATIOS' REPLACEMENT AND PLANTING GUIDE

This list of shrubs, ground covers, and trees is the Approved Replacement and Planting Guide for all residents and the Landscape/Grounds Committee of the Patios of Chestnut Creek. C. IRRIGATION COMMITTEE GUIDELINES:

1. Definition, Operations and Scheduling

IRRIGATION

Our irrigation system is serviced by an outside contractor. It is the responsibility of the property owner along with the contractor, if needed, to identify damaged or inoperative sprinkler heads. The current irrigation schedule provides each lot in the Patios watering once every week for 45 minutes (As allowed by county). Specific days and times for each lot are listed on the Bulletin Board at the Clubhouse.

The system operates from a pump house located just west of the entrance to the Patios where two pumps take water from the lake for distribution to all the Patios properties. Each lot in the Patios is served by a design of sprinklers that cover the area of the property and, in some installations, water boundary line areas. With few exceptions, systems of adjoining properties are not watered at the same time.

Once each year, in the fall, the Association can request the contractor to clean the area around each sprinkler head and check the operation and direction of the spray. (This service may be done a second time in the spring if necessary.) The contractor will also check the entire systems operation. If an Owner wants an upgrade from our stick type sprinkler heads to the “Pop Up” type sprinkler, the Owner will be responsible for the cost. If the Owner elects to do the work himself, he MUST contact the contractor to mark the water lines and/or turn off the water. The Owner is responsible to restore any grounds or equipment at his/her expense.

To report any problems or to have a sprinkler head relocated or changed in any way, please fill out a “Sprinkler Service Request Form” located at the Clubhouse. Then place the completed form in the “mail box marked irrigation” outside Clubhouse door. The form is a written record that assists in the supervision of the system.

If a serious problem forces the shutdown of a lot’s system, the Owner will be notified of the estimated time needed for repairs via a notice on the bulletin board and/or a message on the web page.

SOCIAL CLUB BEREAVEMENT COMMITTEE

The Bereavement Committee was formed to assist Patios' family members who wish to use the clubhouse for a post-funeral/memorial gathering. The committee is an arm of the Social Club and does not alter what individual friends and neighbors may choose to do. We act only to assist the family with any Clubhouse gathering when open to all Patio members, as well as the deceased's family and friends. If other arrangements are made or the Clubhouse is rented for a private function, the Committee is not involved. In any event, the Bereavement Committee needs to know, in order to put or omit a notice on the bulletin board.

There are four quadrants within the Patios to accommodate this function, with two bereavement members in each quadrant. One or two chairpersons oversee these members. The only nonspecific area involves who gets in touch with the family. The most logical contact would be a quadrant member who lives closest to the deceased's family. A close neighbor or friend may also assist in communicating with the family.

The quadrants are divided as follows:

- Quad #1: (red roofs on the Way)
- Quad #2: (white roofs on the Way)
- Quad #3: (red roofs on the Drive)
- Quad #4: (white roofs on the Drive)

NOTE: The Bereavement members in each quadrant are listed on the bulletin board and in the Clubhouse.

The Bereavement Committee will serve all food that has been contributed or provided; additional assistance may be provided from friends and family of the deceased. Social Club funds will not be used to provide food for these gatherings.

The Committee will meet annually to review policies. Additional information may be obtained from "Policy and Procedure for the Utilization of the Patio Homeowners Association Facilities" found in the Redbook.

Notes for use of the Clubhouse for Memorial Event for a resident of the Patios:

1. Whoever hears first: Please let the Bereavement Committee chairperson(s) know of the death so all quad members can be notified.
2. If the family wishes to use the Clubhouse, make sure it will be available on the date and time requested. The Clubhouse Committee chairperson or President of the Board will have that information.
3. If the memorial/gathering is open to all Patio residents as well as the family, we will set up and serve or just help if they wish. There is no charge for the use of the Clubhouse or our services. If this event is not open to Patio residents, there will be a \$50.00 charge. This is covered in the "Policy and Procedure for Utilization of the Patio Clubhouse" in the Redbook. Family can be given a copy of this policy, and we will have no further involvement.

When it is an open function, we do not usually have time to put it in our newsletter, so we will need all quad members to mention to their neighbors by phone or e-mail that they are invited. Also, let them know a donation of a finger food, such as cheese and crackers, little sandwiches, cookies or cupcakes, would be appreciated. The family may wish to provide some additional finger foods. Committee members, if possible, should be there to support the family and friends and to help serve and clean up. Paper plates and plastic silverware should be used.
